

Mobile Weighing Cart ZF / ZFP / ZFS / ZFSP series

- ◆ Small and compact electronics specially developed for mobile weighing. Highest level of water and humidity resistance. Smaller housing is more robust and withstands impacts and vibration better. One electronic board without connectors means reliability for many years in the hardest applications.
- ◆ More reliability for the hardest applications and environments.
- ◆ Lower power consumption.
- ◆ 4 penlight batteries can be changed without any effort.
- ◆ Auto shut off prevents the batteries to be discharged when client forgets to turn the indicator off.
- ◆ Summation of weights with sequence number allows verification if the total load has been weighed.
- ◆ Kg & lbs can be conversed.

Specification

- ▲ Capacity 2000kg.
- ▲ Accuracy 0.1% of the weight applied to the scale.
- ▲ Graduation 1kg.
- ▲ High contrast display with segment height of 18 mm.
- ▲ Summation and sequence number giving the number of weights totalised.
- ▲ Auto tare giving the net weight added to or taken from the scale.
- ▲ Touch panel with push buttons with metal dome, tactile feel gives optimal users interface.
- ▲ Totally sealed design to the norm IP 65 (NEMA 4).
- ▲ Operating temperature is -10° to +40°C.
- ▲ According to ROHS directive and conforms to EN1752-2.

Printer type : Thermal
 Functions : Manual paper feed
 Paper : Thermal roll, diameter 40mm
 Print speed : 13 lines per second

3" (75mm) lowered fork height available.

Scale Pallet Truck HPW series

- ◆ Type A Equipped with a top quality sensor and scale meter from Mettler-Toledo, USA. Features weighing accuracy ±1kg in 2000kg.
- ◆ Type B Equipped with a high quality Japanese sensor and Mettler-Toledo, USA. Features weighing accuracy ±2kg in 2000kg.
- ◆ Rollers/Wheels: Nylon, Polyurethane, Rubber.
- ◆ Heavy duty design.

Mobile Weighing Cart YZF series

- ◆ High accuracy with fixed load cell.
- ◆ Long term reliability from a single circuit board with any extra connectors.
- ◆ Lower energy consumption, auto shut off.
- ◆ Summation of weights with sequence number. Auto tare.
- ◆ Features weighing accuracy ±2kg in 2000kg. 1kg graduation.
- ◆ Small and compact electronics specially developed for mobile weighing.
- ◆ Robust housing protects against impact and vibration.
